The Franchise Council of Australia (FCA) is the peak body for the \$174 billion franchise business segment, which includes over 1,200 networks, with 90,000+ individual franchised outlets, employing more than half a million Australians.

There is a franchise operating in almost every type of business category, with varying levels of complexity and market share, creating employment and prosperity for the nation. The FCA provides a platform for franchisors, franchisees, business advisors and small to medium businesses to influence government policy, communicate with political leaders and key decision makers, network with peers and engage in policy debate.

FCA Members are part of a unique association where business lessons, experience and up-to-date essential information are provided. FCA membership is seen as an essential business investment and the information, policy engagement and business resources of the FCA directly support members.
